

NEW

LX3000

COLOR LABEL PRINTER

NOW WITH
BIG INK™!

LX3000 is the newest, highest-quality label printer developed by Primera. LX3000 features an all-new tanked-ink system and print head for either dye or pigment ink. The tanked-ink system allows LX3000 to give a lower cost per print than any other printer.

LX3000 Features Include:

- » Color inkjet printing at up to 4800 dpi
- » Top print speed of 4.5"/sec.
- » Print width of 0.75" to 8.25" (19mm to 210mm)
- » Print length of 0.75" to 24" (19mm to 609mm)
- » Wired ethernet for network connections

Large, separate ink tanks are chipped to track levels in PrintHub.

Separate CMY Tanked Ink is fed through tubing to the LX3000 print head

LX3000 prints on pre die-cut, continuous, and black mark labels.
